Portfolio by Country

Our primary investment focus is always price. While we do consider foreign governance and other geo-political issues, these are not the main drivers of the investment decision. Nevertheless, we often get asked about exposure by country so we have included the breakdown below.

What makes us unique

- *We do one thing: we manage The McElvaine Investment Trust*
 - *Most fund managers have multiple funds. How do you know you are in the right one? Not an issue with us, we purposely have only one fund.*
- *We are experienced value investors*
 - *Tim McElvaine was formerly Chief Investment Officer at Cundill Funds and has been value investing for over 25 years*
 - *The McElvaine Investment Trust was formed in 1996.*
- *Our fee structure rewards performance not asset growth*
 - *A win-win as we make money when you make money*
 - *Our 0% management fee Series F unit is modelled after the Buffett Partnership*
